Last modified: 03/03/23

**Please consume all data sent in any NMG Outbound documents and return the data on all EDI documents sent to NMG.**

- DC (Ship to) numbers are 4 digits
- Store numbers are 4 digits

**STOCK (ONLINE/LOCKERSTOCK), BERGDORF GOODMAN BACK STOCK ORDERS, and EXPRESS ALLOCATION PO type:**
A stocking location is defined as a “STORE" that resides inside of a “DISTRIBUTION CENTER”. Both locations share the same physical address and location number. If you are EDI compliant, quantities will be represented in a "STORE" data segment, as any other “STORE” allocation. Your EDI 850 transmission and carton label should display the DC and Store number as the same value.

# NM Stores

| Store # | Store Name |
|---|---|
| 1001 | Downtown |
| 1002 | Northpark |
| 1003 | Ft.Worth |
| 1004 | Houston |
